Assistive Devices

THE WALK-O-LONG

The Walk-O-Long is a gait belt designed for use with children with walking or balance disabilities. To use, wrap the Walk-O-Long around the child's chest and under the arms, then adjust it to fit comfortably and secure the single-latch safety buckle in back. The belt security strap extension enables the adult to provide assistance without bending. The primary security strap is made of super-strong flat nylon webbing. The one-piece security strap is threaded through each Walk-O-Long, and then looped at each end. The ends are multi-stitched and formed into strong, comfortable handles designed to fit adult grips.

Price: 24.95
