**:: Walk-O-Long : A Learning Device for Kids**

Wednesday Nov 16 2005, 9:43pm PDT - Charu

Your little one has begun to stand...this means very soon he'll be taking his first step. The Walk-o-long should be the first thing on your shopping list. What is it?...It is a device that will support your child when he's new to walking without giving you a back strain.

Just wrap the **Walk-O-Long** around your child's chest, and under the arms, then adjust it to the perfect fit - about the same as a gentle hug - then secure the single-latch safety buckle in back.

Apart from toddlers it is helpful for those kids also who are learning to roller/ice skate, rehabilitation or children with special needs. Basically it can be used with 10-months toddlers to 8-year-old kids. So give a boost to your child's confidence and do away with all those bumps and bruises of the first time walking.

Thanks : [Danielle](#)

Toys

**:: Top Toy # 9 : I-Dog**

Tuesday Nov 15 2005, 5:46am PDT - Charu

This wonder dog called the I-DOG Interactive Music Companion is TOP Toy # 9. This little cute pooch is really hot among kids as well as their tech-savvy parents.

To see what this pup can do...just make him sit in front of a speaker or plug it into your headphone of your music system and see the I-DOG move and groove to the

Pregnancy

## :: [Risk of Blood Clots to New Mothers and Pregnant women.](#)

Tuesday Nov 15 2005, 1:47am PDT - Charu

As per a new study it is revealed that pregnant women and new moms are advised to get up and start walking in order to ward off the risks of a blood clot that is potential enough to be fatal.

Despite the fact that, the clot is not a common one, but chances of occurrence are four times higher in pregnant ladies and new mothers.

The blood clots in leg veins (known as deep vein thrombosis) and some brake loose and get lodged in the lungs (called pulmonary embolism).So get up and start moving... and if you have a history of obesity,clots or prolonged bed rest , then make it a point to using leg compression devices in the hospital to get the blood moving.

## :: [Wear Your Pre-Pregnancy Clothes even longer with Bella Band](#)

Tuesday Nov 15 2005, 12:12am PDT - Charu

Pants getting tighter day after day ... that maternity panel peeping out from shirt! This situation must be very common for most of the would-be-mommies. But I came across something that is sure to bring an end to these problems. This is the [Bella Band](#) that you can wear around your waist over your un-buttoned pre-pregnancy clothes, and just forget about pants getting tight. I guess the band is gonna be good, provided it does not squeeze the mom a bit too much.

Celebrity Mommies

## :: [Rod Steward freezes his Sperm](#)

Tuesday Nov 15 2005, 12:07am PDT - Charu

I've heard parents preparing hard before the arrival of the baby ... but the preparation that singer [Rod Stewart](#) and his wife Penny Lancaster have made seem exceptional.

As per Penny the couple has froze Rod's sperms "in

case of problems”.

She explained: “We did freeze Rod’s sperm in case there are going to be any problems.

“We were at home. We didn’t do it at a hospital. We were at home privately, you know, intimately.

Another facet of their preparation extends to the fact that Rod is also attending ante natal classes to learn what to do if Penny goes into labor unexpectedly. So, grown-up Rod is ready to act as a mid-wife.

I guess Penny has some doubts about her finacee, keeping a buffer stock of sperms seems an utterly bizzare idea otherwise!

## :: [Indian Baby Names of the Week](#)

Monday Nov 14 2005, 5:12am PDT - Charu

Once again it’s time for Baby names of the Week. This time I have plans to get all five of them from India. So check’em out!

1. Call your baby boy Abhay it means fearless.
2. Ambar can be your baby boy ... it means sky.
3. Call your baby girl Dhara, it means constant flow.
4. Mallika can be your baby girl, it means queen.
5. Nalin can be your baby boy if you want him to be lotus.

[Tips](#)

## :: [Decorate Your Kids Room Part-5 : Lighting](#)

Monday Nov 14 2005, 4:24am PDT - Charu

Lighting forms an important part of kid’s room. Proper lightening enhances the beauty of the room along with it’s utility.

A [ceiling lamp](#) that provides good lighting across the room is a must.

You can also go a bit imaginative and make a cozy corner with comfortable chair and a canopy where-in you can share stories and fairy tails. Make arrangements for a [long neck lamp](#) on the top to diffuse and direct light.

You can go in for two or [three wall lamps](#) with bulbs of varying strength to give a dramatic touch to the room.

To add on to the sleeping mood arrange Christmas lights on the walls that will give the feel of stars.

Most Important Choose child safe lamps and clip any loose wires to the walls if the kids are small.

Toys

## :: [Top Toy # 10 : FLY Pentop Computer](#)

Monday Nov 14 2005, 2:08am PDT - Charu

FLY, the incredible pentop computer is Top Toy # 10. The reason why it's hot with the kids is very simple...it actually reads, and remembers what you write using the optical scanner. Helps them to take notes in class, make their time-table and of course play games. Kids can even record their favorite music on this FLY pentop computer. With this much on offer I wonder why it's still on # 10.

Keep reading for Toys # 9,8,7.....

Baby Care

## :: [How to avoid Tantrums](#)

Monday Nov 14 2005, 1:12am PDT - Charu

I read about [Bunny](#) at BloggingBaby and very well understood what the mother would've gone through at the store. One indeed feels like throwing that shouting kid out of the window ( it's just the anger...don't take it seriously). But still the truth is kids throw away tantrums and they will keep throwing tantrums. It looks funny but I make sure I her favorite books and toys if I have an appointment with the doctor. Apart from that I make it a point to keep her caramel cookies out of her sight so that she might not start all over again. If things look set for a tantrum coming, I bear that at that time, but give her my piece of mind when she's in her senses to listen.

## :: [Bomber Diaper Bag](#)

Monday Nov 14 2005, 12:45am PDT - Charu

Going out with a baby is indeed a tough problem for mothers, as they have to carry a lot of stuff along. Everything from feeding bottles to diapers and bibs to toys ...has to be given a space.

This stylish diaper bag, will definitely solve this problem and carrying it will make a style statement of your own. This easy to clean bag with 3 pockets has expandable sides and a matching roll out changing pad. So looking out for a clean place to change the diaper will not be a problem now.
